SUSTAINABILITY

ENVIRONMENTAL, SOCIAL & GOVERNANCE

WE ARE DEDICATED TO HELPING BUSINESSES AND OCCUPIERS ACHIEVE THEIR SUSTAINABILITY GOALS

Our primary objective is to produce high quality real estate that delivers over the long term. We believe that focusing on ESG enables us to achieve this whilst providing excellent support for existing and growing businesses.

All new builds are designed to meet the needs of modern occupiers, combined with many design features to reduce energy usage, and running costs, throughout the lifetime of the building.

New units will use the latest specification in cladding and roofing materials for high levels of insulation, together with increased roof lights to reduce reliance on lighting within the warehouse.

Patchway Enterprise Park's edge of city location means it is perfectly positioned to remove unnecessary mileage.

A substantial power supply is provided to the units, together with considerations for accommodating an electric last-mile fleet.

THE REFURBISHED UNIT WILL TARGET THE FOLLOWING:

Targeting EPC A and Target BREEAM "Very Good"

Insulation throughout the building will perform 20% better than current building regulations

LED lights will be used for the offices and external lighting

15% rooflights to production area for added natural daylighting

Renewable energy air source heat pumps for heating and cooling the offices and for the hot water generation

Photovoltaic panels on the roof to minimise operational carbon

20% of the car parking spaces will provide for active electric vehicle charging

Duct work installed for 100% passive future car, van and lorry charging, with suitable electricity infrastructure

High thermal performance glazing

PATCHWAY ENTERPRISE PARK
